

Build Blocks Strong Blocks

MAINTENANCE TECHNICIAN

We're Ready to Grow and you can help! Strong Blocks is creating a new, ground-floor opportunity for a confident person with a passion for excellence in home repair and housing maintenance services.

How would you like to join a small, enthusiastic team that works to improve the lives of our central-city neighbors in Milwaukee? Where your passion and persistence will be appreciated and rewarded? Where there is plenty of opportunity for personal and career growth and advancement?

Strong Blocks is ready to grow, and we need your help to fulfill our vision to build strong blocks in urban Milwaukee neighborhoods through our 21-month rent to own program. We're looking for a hardworking person who loves to help people, has a warm and friendly manner, and can fix things around a house.

Your role will include general handyman/woman services, plumbing maintenance, painting, landscaping and yard maintenance, snow removal, cleaning, debris removal, and providing an exceptional level of care for the residents we serve. You also have a way of paying attention to detail and going the extra mile even as you maximize the number of families you can help each day.

People describe you as resourceful, trustworthy, conscientious, hardworking, and enthusiastic. You see yourself as a hands-on learner, and are persistent, with a methodical approach to work.

A team player, you are goal-orientated, love variety, work effectively with little oversight, and enjoy a fast-pace environment. If you find yourself alone without tools working in a dark basement with all the windows boarded up and in charge of removing large amounts of debris in a short amount of time, you may improve your lighting by using a loose pipe to rip off two of the boards on the windows and start stacking debris on the plywood and carrying it to the garbage cart; but the next time you'd be ready.

You are excited to take advantage of this opportunity to learn and grow in ways you never anticipated. You have significant experience working with your hands - you may have even worked in maintenance for a residential property manager that managed single-family homes.

You have your own basic tools, and know how to use them. You are skilled in working a smart phone, texting, and enjoy taking pictures of your completed projects on your phone. Because we serve diverse communities, candidates who grew up, live, went to school, work, and/or frequently visit in and around Milwaukee's near north side neighborhoods including Harambee, Washington Park, Cold Spring Park, Midtown, and Arlington Heights are especially encouraged to apply.

This is an hourly position at various project sites throughout the near north side of Milwaukee.
